

# Employee badge in Apple Wallet

[security.gallagher.com](https://security.gallagher.com)

**Security**

## **Access. With just an iPhone or Apple Watch.**

With employee badge in Apple Wallet, staff can easily access their corporate spaces with just their iPhone or Apple Watch. Employees just need to hold their iPhone or Apple Watch near the reader to unlock. It's easy, convenient and private.

## **Simple deployment with Gallagher Command Centre.**

Employee badges in Apple Wallet on iPhone and Apple Watch seamlessly integrate into Gallagher Command Centre making them easy to deploy and manage. Getting started is quick and efficient.

## **If they've got an iPhone, they can get access.**

Employee badges in Apple Wallet on iPhone and Apple Watch allow your staff and customers to open doors. Thanks to NFC technology, they can access places quickly and safely, all without opening any additional apps.

## **Your employee badge. With the privacy and security of iPhone.**

Employee badges in Apple Wallet take full advantage of the privacy and security features built into iPhone and Apple Watch. They are stored on the device, which means Apple doesn't see the places your employees access, so data is private and secure. And if a user misplaces their iPhone or Apple Watch, they can use the Find My app to lock and help locate their device, and suspend their key or remotely erase the device and its keys.

## **Get in faster with your iPhone and Apple Watch.**

With Express Mode, you don't need to unlock your iPhone or Apple Watch, or open any apps to use your employee badge in Apple Wallet. Just tap your device on the reader to unlock.

## **Even without a charge, your iPhone still gets you in.**

If your iPhone needs a charge, your employee badge in Apple Wallet will still work. Power Reserve provides up to five hours of access, so you can still get into your office.

### Keep track of your employee badge.

If an iPhone or Apple Watch is misplaced or lost, the employee badge in Apple Wallet will be suspended once the device is marked as lost in the Find My app. The badge can be reactivated once your device is recovered.

### Badging in is easy.

Once your employee badge has been added to Apple Wallet, you can unlock your door by holding your iPhone or Apple Watch near the reader. You don't even need to wake or unlock your device. It's that simple.

### Adding your employee badge is easy.

Open the Gallagher Mobile Connect app on your iPhone and tap Add to Apple Wallet. Then use your iPhone or Apple Watch to access your corporate spaces.

### Your employee badge. Now with less badge.

With your employee badge in Apple Wallet on your iPhone or Apple Watch, you can enter and leave your office without your physical key or ID card. That's one less thing to carry.

*Requires eligible device and OS version. See [support.apple.com/en-au/HT212171](https://support.apple.com/en-au/HT212171) for details.*
