

Mobile Everything Classroom Course

Introduction

This training course provides system Operators and Administrators a view of Gallagher Security's advanced mobile solutions. Learn about **Mobile Connect** - securely transforming your mobile device into an access card and ID card, giving you control, allowing you to interact with your building systems, arm and disarm areas, and much more; **Command Centre Mobile** - securely connecting your mobile device to Command Centre, allowing you to manage everyday security from anywhere on or off site; and our latest **Web Client** offering.

Goals

At the completion of this training session you will have the skills necessary to administer a Gallagher Security Mobile Solutions and a working knowledge of:

- Command Centre
- Personal Data Fields
- Cardholder Management
- Mobile Credentials
- Digital IDs
- Command Centre Web
- Broadcast Notifications
- Macros
- Command Centre Mobile
