

Education Security Solutions

security.gallagher.com

Stakeholders

Education providers around the world achieve enhanced operational efficiency and cost savings through Gallagher's security system.

Human Resource Management

- Can you validate staff working hours?
- How is time on site managed for visitors and contractors?

Security

- Can the site be efficiently evacuated or secured in case of an emergency?
- Can security personnel gain access during evacuations and lock downs?
- How are computer labs, science labs and transportation facilities secured?

Information technology

- Would you like to be notified immediately of any inactive networked security devices?
- Is it important to send system and network alerts to relevant personnel via email?
- Do your field devices provide monitoring and use encrypted communications?

Administration

- How is the general public given access to facilities?
- How are electronics, sporting equipment, books, and other resources tracked and managed?

Building and grounds management

- How do you ensure effective energy management?
- How do you securely manage after-hours access?
- Do you want to automatically have your access control system reflect room bookings?

System Applications

Key Requirements

Gallagher's Solutions

Visitor and contractor management

- Simplified monitoring of visitor movements with Gallagher's visitor management feature
- Establish time and date parameters for different visitor groups
- Track contractor time on site
- Prevent unauthorized access through automatic revocation of cards after expiration

Ability to evacuate or lock out the whole or portion of a site

- Complete site closure or partial site closure through access zones
- Customizable entry privileges during evacuations or lock outs for security and administrative staff

Public access during school hours

- Access zone scheduling enables doors to be unlocked during preset times

Multiple card functionality

- Mifare technology can combine multiple functions into one card (e.g. purchasing lunch, library borrowing, photocopying, tracking of equipment and other assets)

Audit trail of events for documentation of facility use

- Full reporting capability for a particular cardholder's activities and for a particular access point

Facility access based on course schedule

- A student's access rights can be preset according to the course schedule through customized integrations
- Synchronize room bookings and access control
- Automatically protect assets when rooms are not in use

Alarm monitoring after hours

- Key personnel can receive alarms via email and SMS instantly
- Alert the central monitoring station for appropriate action
- Seamless alarm management through single software platform
- Fully integrated intrusion detection to identify any breaches at the site entrance

Cost savings

- Lighting and air conditioning can be preset to only operate at class times, through integration with building management systems

Optional Licensed Features

Optional Licensed Features

Wireless Reader Solutions	<ul style="list-style-type: none"> Lower cost alternatives for securing student accommodation on campus while using the same access card
Fingerprint Reader	<ul style="list-style-type: none"> Verify students identity when gaining entry to an exam
Enterprise Data Import Interface (2A8962)	<ul style="list-style-type: none"> Automatically import information from student or staff databases with the simplicity of direct database connection or via import files Import data can be mapped to provide access to labs, lecture theatres and common areas required for the course
Photo ID & Encoding (2A8071)	<ul style="list-style-type: none"> Automatically print, encode and update student photo ID cards
Guard Tours (2A8968)	<ul style="list-style-type: none"> Guards are set a pre-arranged route and maximum time-frames between checkpoints on the tour If a guard is late to a checkpoint, an alarm is automatically raised
Recorded and Live Video Integrations (e.g. parking lot, hallway, laboratories)	<ul style="list-style-type: none"> Full integration with supported DVR, NVR, CCTV or video management systems Integrated imaging solution links visual records to events in Gallagher Command Centre
Booking Interface (Syllabus Plus)	<ul style="list-style-type: none"> Eliminate the daily resource requirement of manually reconciling two systems Significantly reduce costs of unnecessary power consumption Secure assets in unattended rooms
BACnet Protocol HLI	<ul style="list-style-type: none"> View all services on site at all times Alarms can be automatically escalated to management Only users with correct privileges can activate services Services are shut down when no movement is detected
