

Healthcare Security Solutions

Stakeholders

Reduce the risk of theft and contamination from unauthorized access

Human Resource Management

- Can you validate staff working hours?
- Which personnel credentials need to be publicly visible?
- How is time on site managed for visitors and contractors?

Information technology

- Do you need your access control system to integrate with other technologies?
- Do you want to utilize existing cabling infrastructure to install your new system?
- Can you effectively enforce corporate rules and policies?

Security

- Can the site be efficiently evacuated or secured in case of an emergency?
- Can security personnel gain access during evacuations and lock downs?
- How can patient access around the site be safely managed and monitored?
- How do you securely control and monitor public and personnel access?

Operations Management

- How are bio labs and pharmacies protected?
- How is the parking infrastructure controlled and monitored?
- Are you managing power usage effectively?

System Applications

Key Requirements

High security around pharmacies, laboratories, medications and biohazardous areas

Notification of alarms and security breaches

Ability to evacuate or lock out the whole or portion of a site

Internal access control (e.g. offices, nurse stations, staff rooms)

Control and monitoring of public and personnel access

Traffic flow for parking infrastructures

Personnel credentials

Cost savings

Gallagher's Solutions

- Customized access using user defined competencies (e.g. drug and alcohol screening, bio hazard training)
- Biometric fingerprint reader integration available with Morpho readers
- Creation of mantraps (interlock groups) for secure, sterile entry
- Optional dual-authorization zones through zone counting

- Key personnel can receive alarms via email and SMS instantly
- Alert the central monitoring station for appropriate action
- Seamless alarm management through single software platform
- Fully integrated intrusion detection to identify any breaches at site entrance

- Complete site closure or partial site closure through access zones
- Customizable entry privileges during evacuations or lock outs for security and administrative staff

- Integrations with Salto and Aperio wireless products for a cost effective, convenient solution to less frequently used doors

- Access privileges customizable with preset times
- Controlled access according to personnel shift hours
- Automatic revocation of access upon expiration

- Anti-passback and anti-tailgating configuration for employee parking garages
- Access card-controlled barrier arms enables monitoring of who enters and exits employee parking garages
- Full live integration with multiple video management systems

- Photo ID, badge printing and card encoding available through Gallagher software
- Seamless fingerprint enrollment through Gallagher software

- Energy savings achieved by ensuring lighting and air conditioning are only operated as required, through integration with building management systems

Optional Licensed Features

| | |
|---|--|
| Enterprise Data Import Interface (2A8962) | <ul style="list-style-type: none">▪ Automatically import information from staff or contractor databases▪ Import data can be mapped to automatically provide different access based on role, department or other criteria |
